

JBL WR2.4

Digital Wireless Home Headphones

Ergonomically designed volume control

Wireless JBL sound for unimpaired listening pleasure

The new JBL WR2.4 wireless headphones are the perfect complement to your home audio system. Your music, movies, and games come alive while you enjoy unrestrained freedom to move. Connect the transmitter base (which doubles as a custom-fitted charging cradle) to your home audio system or mobile device, and enjoy crystal-clear wireless audio from over 30 meters away. The WR2.4 is a stylish, wireless headphone offering solid performance at an entry-level price point.
