

Welcome to the new generation of hi-fi.

Meet the new face of cutting-edge sound: the Nova Wireless Stereo Speaker System from Harman Kardon. Designed for beauty and performance, the Harman Kardon Nova has been developed with attention to the smallest details of acoustics and materials. From the seamless, see-through enclosure that exposes the turbine housing for the woofers and drivers, to the custom tuned DSP, every detail of the Nova screams standing ovation. As captivating as it is, the Nova adapts easily to nearly any audio system, and offers both analog and optical connections as well as Wireless Bluetooth® with NFC, so that you can play music from any device in your home.

FEATURES

- ▶ Powered 2.0 speaker system
- ▶ Wireless Bluetooth® connectivity with NFC for easy setup
- ▶ Analog and optical connections for versatile connection to any source
- ▶ Extended bass response from dual passive radiators

Powered 2.0 stereo speaker system with extended bass response

At 80 watts of power, the Harman Kardon Nova delivers all the power you need for a powerful home audio system. With a Bass Boost function and a generous enclosure, the Nova offers all the size and features for full fidelity performance.

Performance-tuned 2.5" drivers and 1.25" tweeters produce a richer listening experience

As a customized acoustic package, the Nova delivers clarity from the highest treble to the deepest bass. Its 2.5" drivers and 1.25" tweeters, when combined with its passive radiator, deliver a full range of sound that's bound to win the heart of any listener.

Harman DSP for improved soundstage and voicing

The Harman Kardon Nova is a custom-tuned speaker system with a proprietary Harman DSP, developed specifically for the Nova's drivers and tweeters. These work in tandem to deliver improved depth of soundstage, along with overall imaging. The results speak for themselves: jaw-dropping levels of realism added instantly to your listening experience.

Compatibility with any device via analog, optical, or Bluetooth® wireless with NFC

Think of the Harman Kardon Nova as your all-in-one home audio solution. The Harman Kardon Nova is compatible with nearly any sound delivery device – using an analog 3.5mm connector to connect to computers, smart phones, tablets, or stereo equipment; not to mention optical connectivity with televisions, Apple® TV, or a Roku Box. Furthermore, it comes with built-in Bluetooth® wireless with NFC, so you can pair it to your smartphone, computer or tablet with no cables.

What's in the box:

- 1 Harman Kardon Nova stereo streaming system
- 1 AC adaptor
- 1 3.5mm connector cable
- Quick-start guide

Specifications

- Power supply: 19V DC, 3A
- Power consumption: 57W maximum, <0.5W eco-standby mode
- Speaker channel number: 2
- Transducers: 2.5"(63mm) for woofer, 1.25"(35mm) for tweeter.
- Amplifier power: 2*20W woofer+2*20W tweeter
- Frequency response: 70Hz - 20KHz
- Signal-to-noise ratio: 85dB at rated power (A-weighting)
- Bluetooth® transmitter frequency range: 2.402 - 2.480GHz
- Bluetooth® transmitter power: Max. 4dBm
- Bluetooth® transmitter modulation: GFSK, $\pi/4$ DQPSK, 8DPSK
