

MTC-1A

Wall Mounting Bracket

for the JBL Control 1 Loudspeaker

The MTC-1A wall mounting kit accommodates the Control 1 compact loudspeaker providing both tilt and swivel features for horizontal and vertical installations.

When mounted in the vertical position, the speaker can be swiveled horizontally 90 degrees from left to right or 45 degrees left or right of center. Additionally, the bracket can be tilted down a full 90 degrees, making this an ideal wall or ceiling mount device.

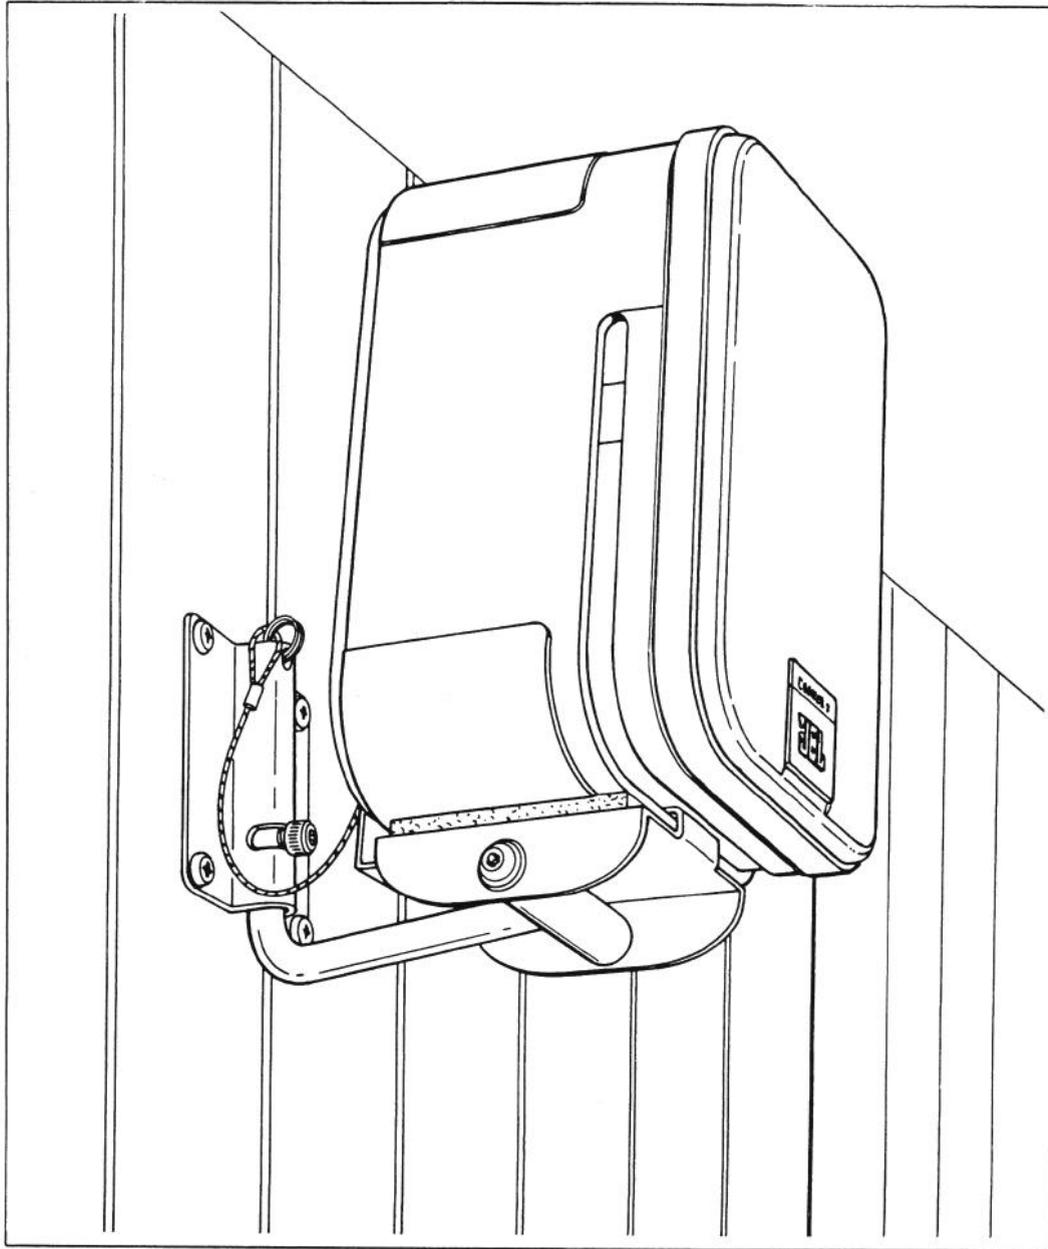

When horizontally installed, the Control 1 will achieve 60 degrees of swivel from left to right or approximately 30 degrees left or right of center. As in vertical installation, the speaker enclosure will see a full 180 degrees of vertical tilt, making this also an ideal wall or ceiling mount.

The MTC-1A features include:

1. Horizontal swivel adjustment
2. Vertical tilting adjustment
3. An Adjustment tool
4. Safety cable
5. Noise reduction pad
6. All steel construction
7. Baked-on powder coated paint finish
8. Wall or ceiling mountable
9. Vertical or horizontal installation capability
10. Packaged in pairs
