

## CDR 30

DUAL-TRAY CD-R/RW RECORDER/PLAYER  
WITH HDCD® AND MP3 DECODING

Consider the vast possibilities. It's fluent in the latest digital technologies, including MP3 decoding and hyperrealistic HDCD playback. It can dub single tracks at 4x speed, or programmed playlists at 2x speed. It can record up to 99 tracks on blank CD-R or CD-RW discs from external digital or analog sources, and has both front- and rear-panel digital inputs to make connections a snap. In the single-play mode, it's a 2-disc changer. In the dual-play mode, it's a multiroom entertainment source. It's the audiophile-quality Harman Kardon CDR 30. If this CD recorder/player can't do it, it probably can't be done.
