Specifications

■ Harman Kardon® Music and Theater 2000

You've come to expect Harman Kardon® products to deliver advanced performance characteristics. But to be worthy of the Harman Kardon name, our systems must also be easy to set up and use. The Harman Kardon Music and Theater 2000 system is a complete, 5.1-channel entertainment package featuring the advanced AVR 1650 receiver (which delivers a maximum number of features with a minimum number of buttons), the HKTS 16BQ speaker and subwoofer system, and The Bridge IIIIP docking station for iPod and iPhone devices. These stunning components employ the industry's most advanced technologies, guaranteeing you the highest possible audio and video quality from any media source, old or new, automatically. A single, intuitive remote controls the entire system as well as your TV and virtually any other component you may choose to connect. The Music and Theater 2000 is a highly sophisticated, all-inclusive home entertainment system. But you won't need an in-house technician to enjoy it.
