

LINKDRIVE

JBL Link Drive Optimized for the Google Assistant

Google Assistant

JBL Link Drive is the exclusive in-car Google Assistant. Make google do it.

The JBL Link Drive is a plug and play Google Assistant for any vehicle that has Bluetooth® or a mini audio jack. JBL Link Drive is powered by constant power connection to your cigarette lighter and provides convenient and safe voice control of features of your smartphone such as voice dialing, prompts and control of your favorite navigation app and your calendar. It engages Google Assistant via voice command & push-to-talk button, provides RGB visual and audio feedback. It can be integrated to any car audio system via Aux-in or Bluetooth. Featuring a multi-function button, JBL Link Drive enables you to push to talk with short-press operation on the button when device standby and mute your phone call through a double-press. Enjoy crystal clear and hands free calls with dual stationary echo-canceling microphone.

LINKDRIVE

JBL Link Drive Optimized for the Google Assistant

Features and Benefits

Get help from your Google Assistant

The Link Drive has Google Assistant built-in. It is your personal virtual assistant. Always ready to help. To get started, simply say hot word "Ok Google" or "Hey Google" in your car.

Hands-free voice control

Voice recognition allows for easy hands-free operation. Ask questions in your car and the JBL Link Drive will respond. Make google do it.

Echo Canceling microphone

The JBL Drive provides the user with optimum microphone sensitivity while eliminating the unwanted background noise and echo.

USB 2.1A fast-charging port

The USB port allows charging of smartphones, tablets & other USB mobile devices.

Simple setup with the Google Assistant App on iOS & Android (Simple setup & use)

With the free Google Assistant app on iOS & Android, you can easily setup and manage your JBL Link Drive.

Versatile connection via Bluetooth® and Aux-in

Connection through Bluetooth and Aux-in cable for almost any headunit in the car

- Quick and easy pairing via Bluetooth and start streaming audio
- Wired audio connection via Aux-in cable giving a better audio quality

Radio barging keeps you informed

When connected to Bluetooth Link Drive will interrupt your vehicle radio to deliver important information when it has commands or feedback from Hot Word Triggers.
