

JBL encounter™

out-of-this-world sound system

JBL encounter™

out-of-this-world sound system

JBL Encounter 2.1, a compact, high-performance sound system, is a revolution in personal sound for the desktop. Connected to your desktop, iPod®, MP3 player or other music source, JBL Encounter will provide a clean, powerful soundstage.

Compatibility A stereo mini jack connection also allows you to enjoy high-quality audio from a variety of other devices such as MP3 and CD players, desktop computers (all platforms) and laptops.

Easy-to-Use Touch Controls Touch Volume Control – Just a touch increases or decreases the volume. A touch on both pads mutes or un-mutes the system. JBL Encounter also remembers your last volume setting even after the system shuts down.

Additional Features The bass control utilizes FCS, a fixed crossover shelving topology. This allows for a pure bass adjustment that does not affect the sound imaging as the bass level increases. The bass and treble controls are located on the rear of the subwoofer.

Advanced Technology JBL Encounter combines many proprietary technologies to provide the highest quality sound. It will provide astonishing bass and clear, accurate sound.

Odyssey® Transducers – The four aluminum-domed transducers are driven by powerful neodymium magnets. This design provides a full, rich frequency response, from the mids to the highest highs.

Magnum™ Subwoofer Transducer – The Magnum 6-inch driver is optimized for clean, powerful bass response.

Patented Slipstream Port Design – The satellite and subwoofer ports utilize a patented slipstream port geometry. This design maximizes port efficiency while minimizing port noise.

COE (Computer-Optimized Equalization) – System equalization is computer-optimized to provide a rich, complete soundstage.

OCT (Optimized Compression Topology) – JBL Encounter utilizes a proprietary compression technology to ensure clean, accurate sound at high output levels.

Technical Specifications

Manufacturer:	Harman Multimedia
Model Name:	JBL Encounter
Available in:	White With Chrome
Input Requirement:	1/8" (3.5mm) mini stereo jack
Drivers:	Satellite – four Odyssey neodymium drivers Subwoofer – Magnum 6
Power:	Satellite – 13 watts per channel Subwoofer – 34 watts
Frequency Response:	40Hz – 20kHz
Dimensions:	Satellite: Diameter – 3-1/2" (90mm) Height – 6" (150mm) Subwoofer: Diameter – 7" (175mm) Height – 20" (250mm)
Weight:	8 lb (3.6kg)
Input Impedance:	>5k ohms
Signal-to-Noise Ratio:	>80dB
Voltage Input:	120V AC US 100V AC Japanese 230V AC Europe
