

PA 2000

POWER AMPLIFIER FOR MULTIROOM/
MULTICHANNEL APPLICATIONS

Power to spare, no matter where it's needed. The Harman Kardon PA 2000 is the amplifier designed to power multiroom applications, as well as the additional channels added by state-of-the-art 7.1 channel systems. The PA 2000's high-current, ultrawide-bandwidth design may be configured for 4 x 45-watt or 2 x 100-watt operation and features output circuits optimized for long-distance cable runs. Adding additional rooms is simple, thanks to parallel line level outputs. The PA 2000 centralizes power for entertainment, anywhere in the house.
