

/ AB 2

Amplified in-wall module with onboard controls for A-BUS® applications

Highlights

- Simple connection to any A-BUS-equipped Harman Kardon product, ABH Series expansion hub or compatible A-BUS products
- Easy-to-use eight-key button control for source selection, transport control, volume up/down
- Built-in IR sensor for control of compatible Harman Kardon source devices
- Uses standard Category 5/5e cable or higher and RJ-45 connections for easy installation
- Includes credit card-sized remote control

The ultimate keypad. The AB 2 connects to your A-BUS®-equipped AVR or ABH expansion hub to power your local speakers without an additional amplifier. Also, it easily allows you to select and control your listening sources as you enter a room (and its key caps are swappable, to mirror your system), or to power the system off as you depart. And during your stay? The AB 2 has an infrared sensor to relay your every wish to the AVR with virtually any Harman Kardon® remote control.

Key Specifications

- Dimensions (H x W x D) and weight: 4-5/16" x 1-13/16" x 1-5/16" (110mm x 46mm x 33mm), 0.25 lb (0.11kg)

Depth measurement includes knobs, buttons and terminal connections, unless stated otherwise; height measurement includes feet and chassis, unless stated otherwise.

Amplified in-wall module with onboard controls for A-BUS® applications

Features

Connectivity

- Stereo (L + R) loudspeaker outputs
- Punch-down connector with color coding for Category 5/5e and higher UTP cables

Ease of Use

- Extends the flexibility of your home entertainment system so that it delivers sound to another room in your home
- Simple connection to any A-BUS-equipped Harman Kardon product
- Powers most speakers without the need for an additional amplifier through a single Category 5/5e or higher cable
- Easy-to-use eight-key button control or credit card-sized remote control for source selection, transport control, volume up/down
- Operates compatible Harman Kardon source components and turns the system on and off using a second-zone remote control through a built-in IR sensor
- Screw-less Decora®-style wall plate (not included) blends perfectly with other in-wall electrical controls
- Suitable for connection to speakers with nominal 6 ohms or 8 ohms impedance
- Status and power LED indicators
- Designed to fit in a standard J box for in-wall installation
